

Year 4 Maths Spring 1

Unit of learning: Multiplication and Division

B

Duration: Approx. 3 weeks of learning time.

Learning Objectives

- To use factor pairs
- To multiply and divide by 10
- To multiply and divide by 100
- To use related multiplication and division facts
- To use informal written methods of multiplication
- To multiply a 2 digit number by 1 digit number
- To multiply a 3 digit number by 1 digit number
- To divide a 2 digit number by a 1 digit number
- To divide a 3 digit number by a 1 digit number
- To multiply efficiently

Vocabulary

Definition

Multiple	A number that is the result of multiplying one whole number by another whole number.
Factor	A number that can be multiplied by another number to create a product.
Product	The total when numbers are multiplied together.
Commutative	Factors can be swapped, and the product will remain the same when multiplying..
Quotient	The answer given when one number is divided by another.

As children of God we are loved, we are called, and we are inspired.
